# MICHAEL S. BOLTON, MBA

**BASEBALL RESEARCH & DEVELOPMENT ANALYST | APPLIED AI | DECISION INTELLIGENCE**

michael.bolton.ph@dartmouth.edu | linkedin.com/in/bolton-2600 | github.com/mega-byte2600

## PROFESSIONAL PROFILE

U.S. Navy veteran with an MBA and Dartmouth MPH in progress (expected June 2027).
Hands-on builder spanning baseball decision tools, AI/data engineering, quantitative strategy, healthcare quality and accountable operations. Public project evidence and scope disclosures online.

## SELECTED PROJECTS AND IMPACT

**HARDBALL | Independent baseball research and decision intelligence**

Built a public analytics workspace connecting performance, player availability, roster choices, projections and payroll trade-offs; publishes methods and uncertainty for independent review.
Author-reported scenarios include mixed-integer optimization and projected WAR comparisons.
Evidence: mega-byte2600.github.io/hardball/dashboard/ | github.com/mega-byte2600/hardball

**DELOITTE | Senior Solutions Engineer | 2018-2020**

Delivered public-sector AI and Data Engineering modernization across cloud, Python, APIs, automation, future-state architecture and Agile engineering/QA coordination.
Reported approximately 85% lower deployment time on an IRS modernization effort.

**ABBOTT LABORATORIES | Operational Excellence and R&D Quality | 2022-2024**

Created an open-source maintenance workflow using Request Tracker; estimated about $250,000 in annual recovered technician labor capacity at one Santa Rosa laboratory, not cash savings.
Supported regulated quality improvement and corrective/preventive action (CAPA) processes.

**SAN LUIS OBISPO COUNTY | Systems Administration / Information Security | 2026**

Built electronic incident reporting in roughly two months, replacing paper/manual workflows.
Evaluated approximately 8-10 AI-enabled tools and developed governance, privacy and risk controls.

**CDC | IT Specialist | 2024-2025**

Modernized 250+ regulated laboratory endpoints; reported 63% lower support ticket backlog.

**PFAC TOOLKIT | Dartmouth applied public-health practice project**

Created an evidence-informed patient and family advisory council operating toolkit for leaders.
Players First is a proposed transfer of these principles to baseball, not an MLB program.
Evidence: pfactoolkit.org

## EDUCATION AND CREDENTIALS

University of Wyoming | MBA, General Management, 2024
Dartmouth Geisel School of Medicine | MPH candidate, expected June 2027
Youngstown State University | Bachelor of Science, Biological Sciences, 2008
Lean Six Sigma Green Belt | U.S. Navy service, 2002-2007

## TECHNICAL AND LEADERSHIP STRENGTHS

Python, JavaScript, SQL, AWS/GCP, data engineering, applied ML, statistical models, API integration, verification/validation, process improvement, privacy/AI risk governance, cross-functional delivery.
Self-reported languages: English, Spanish, Brazilian Portuguese and French.

This public r^'sum^' is a role-targeted summary; outcomes are author-reported unless independently demonstrated by linked public project artifacts. No MLB employment or endorsement is claimed.
